SUMMARY

Cloud & DevOps Engineer with hands-on experience in designing, automating, and deploying cloud-native infrastructure on AWS. Proficient in CI/CD pipeline implementation, containerization with Docker, orchestration using Kubernetes (EKS), Infrastructure as Code with Terraform, and monitoring using CloudWatch and Datadog. Strong foundation in Linux administration, cloud operations, and backend technologies, with a passion for automation and scalable system design.

TECHNICAL SKILLS

Cloud Platform: AWS (EC2, S3, IAM, VPC, EBS, EFS, ALB, Auto Scaling, RDS, CloudWatch, EKS)

CI/CD & DevOps Tools: Jenkins

Containerization & Orchestration: Docker, Docker Compose, Kubernetes

Infrastructure as Code (IaC): Terraform (Modules, Remote State – S3 & DynamoDB)

Monitoring & Logging: Amazon CloudWatch, Datadog

Version Control: Git, GitHub

Operating Systems: Linux (Ubuntu, Amazon Linux), Windows

WORK EXPERIENCE

DevOps Intern | HisanLabs Pvt. Ltd., Pune

Jun 2025 – Present

- Designed and deployed scalable and highly available AWS infrastructure using EC2, VPC, IAM, Application Load Balancer, Auto Scaling, and S3.
- Built and automated CI/CD pipelines using Jenkins and GitHub, reducing manual deployment efforts by approximately 40%.
- Containerized applications using Docker and Docker Compose and deployed workloads on Kubernetes (Amazon EKS).
- Implemented Infrastructure as Code (IaC) using Terraform with reusable modules and remote state management for consistent and repeatable deployments.
- Monitored cloud infrastructure and applications using Amazon CloudWatch and Datadog; performed Linux administration and troubleshooting in production environments.

Software Developer | Y-SAAS Infotech Pune

Dec 2023 – April 2024

- Developed web applications using Java, Spring, JSP, HTML, and CSS
- Designed and managed backend functionality using MySQL database
- Collaborated with team members to build and deploy application features

PROJECTS

Student-registration DevOps Project

- Built a production-grade DevOps workflow on AWS by provisioning infrastructure using Terraform and deploying applications with Jenkins, Docker, and Kubernetes (Amazon EKS).
- Automated CI/CD pipelines using Jenkins and SonarQube and monitored application and infrastructure health using Amazon CloudWatch and Datadog.
- Hosted the frontend as a static website on Amazon S3 with CloudFront CDN and integrated backend services with Amazon RDS (MySQL).
- GitHub Repository: [Student-registrations](#)

EDUCATION

Master of Computer Applications (MCA),

Savitribai Phule Pune University

Vidya Pratishthan's Institute of Information Technology (VIIT), Baramati,

2022–2025 | **CGPA: 7.8 / 10**

Bachelor of Computer Applications (BCA),

Savitribai Phule Pune University

M.S. Kakade College, Baramati,

2018–2021 | **Percentage: 60%**
